uniVäve™ PENDANT

THE FORMULA FOR A
HEALTHY ACTIVE LIFESTYLE

THE REALITY

Technology is being built in stealth mode with limited testing done and the latest mobile generation - 5G – has an unprecedented radiation spectrum.

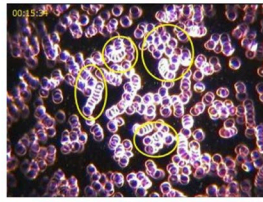

With the rush of unregulated 5G infrastructure being incorporated around us, you should know how to protect yourself from 5G and other EMF radiation.

OUR DISCOVERY

- Uniwave by Quantes Technology refers to a form of energy outside the conventional electromagnetic spectrum, possessing unique properties that can influence matter at a quantum level. It's practical applications have wider potential in healthcare industry.
- The shape has 4 distinct corners, but its edges curve both upward & downward, creating an interesting & unique design.
- A proprietary "energisation" process technology based on the principles of Quantum Physics.

THE RESULTS

- A re-balanced biofield & stability
- Significant protection from EMF, including 5G and Geopathic Stress
- Improved physical performance
- Energy flow and qualitative balance is restored
- Having a quality sleep
- Enhance positivity and creativity
- Rejuvenation of cells
- Increase energy levels
- Improve focus and concentration
- Neutralize harmful manmade and natural frequencies transmitted into beneficial energies
- Boost endurance, strength and vitality
- Enhance the body's flexibility
- Strengthen the body's immune system
- Trigger the production of stem cells for new cell formation
- Provide optimum energy for the healthy lifestyle
